Attention: TO WHOM IT MAY CONCERN

Subject: LETTER OF RECOMMENDATION

The position of Quality Control Manager for the Bassett Replacement Hospital project on Fort Wainwright, Alaska, has given me the opportunity to experience first-hand the services and the personnel of Rockwell Engineering & Construction Services, Inc. (Rockwell E&C). Rockwell has provided environmental subcontracting services to the General Contractor, Dick Pacific/GHEMM JV, since the spring of 2002 when the project excavation began.

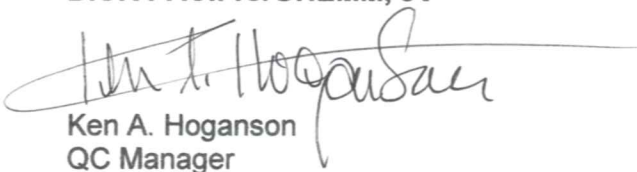

These services include coordinating with the Army Corps of Engineers, FTWW personnel, ADEC and some of the project's subcontractors; writing work plans (WPs); taking water samples; completing soil screening and cleanup in constantly varying weather and site conditions in accordance with the WP; responding to on call requests; and, writing all reports.

Rockwell E&C's scope of services to Dick Pacific/GHEMM JV has exceeded \$223,000 to date. Their staff and management are conscientious about controlling project costs while completing their work effectively. They met their specific project objective of completing work to date.

Rockwell E&C is a professional group that provides Dick Pacific/GHEMM JV with exceptional field service and comprehensive reports. We would contract Rockwell E&C for future projects and would recommend them to other firms without hesitation.

Sincerely,

DICK PACIFIC/GHEMM, JV
