**RE: Rockwell Engineering and Construction
Letter of Reference**

To Whom It May Concern:

This is a letter of reference for Rockwell Engineering and Construction (Rockwell E & C). **NORTECH** has worked with Rockwell E & C on a variety of projects over the past several years, both as client and as a consultant. Rockwell E & C has provided **NORTECH** with a variety of construction services including underground storage tank removal, contaminated soil excavation and hauling, equipment hauling, and similar work. Rockwell E & C efforts for **NORTECH** have exceeded \$100,000 on each of two projects in the last three years and Rockwell E & C has worked for **NORTECH** on several smaller projects as well. Rockwell E & C has provided consistent, high-quality services and **NORTECH** will continue to use Rockwell E & C for cost-effective construction services.

NORTECH also rents portable testing devices and other equipment from Rockwell E & C as the need arises and has provided Rockwell E & C with safety and industrial hygiene support on several projects. **NORTECH** has provided Rockwell E & C with services on approximately seven projects since 2000 with the average dollar value below \$5000 and Rockwell E & C has paid promptly within the term of our contracts.

Please do not hesitate to contact me if you have specific questions about our experiences with Rockwell E & C.

Sincerely,
NORTECH

A handwritten signature in black ink that reads "Peter Beardsley".

Peter Beardsley, PE
Environmental Engineer
