

October 8, 2005

To Whom It May Concern;

This letter is being written on behalf of Mr. Mark Rockwell of Rockwell Engineering and Construction. This company completely transformed two acres of land with an existing three thousand square foot house already in place. When the house was built eight years ago, then no effort was made to landscape or properly clear and grade the property.

Mark Rockwell's company cleared sixty percent of the property, constructed a retaining wall greater than one hundred fifty feet in length, expanded the drive way by forty percent and erected a thirty by fifty foot steel motor home garage complete with free standing slab heat.

Mark Rockwell presses any project with total devotion and is always looking for ways to improve on solving problems. He is very competent and tenacious in his pursuit of perfection of his finished product, no matter what the task at hand.

I hold Mark in very high regard and have recommended him to friends. He did in excess of \$200,000 worth of work for us in 2004. I would certainly contract with him in the future for any other projects.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jerry A. Perisho".
