*Subject:* LETTER OF RECOMMENDATION

Rockwell Engineering & Construction Services, Inc. (Rockwell E&C) has provided environmental subcontracting services for Rockford Corporation from 2001 to the present for many projects on Fort Wainwright and Eielson Air Force Bases, Alaska.

These services include coordinating with the Army Corps of Engineers, FTWW and Eielson personnel, ADEC, and other subcontractors; writing work plans (WPs); completing soil screening and cleanup in constantly varying weather and site conditions in accordance with the WP; responding to on call requests; and writing all reports.

Rockwell E&C's scope of services presently exceed \$157,306 for all projects. They control project costs while completing their work effectively. They met their specific project objective of completing work to date.

Rockwell E&C is a professional group that provides Rockford Corporation with exceptional field service and comprehensive reports. We will continue to contract Rockwell E&C for future projects and recommend them to other firms without hesitation.

Simply put....an exceptional group of professionals!

Sincerely,

Steve Schoeni

President & General Manager
